2. On 18 April, the undersigned called [redacted] who again reiterated his availability when the situation clearly indicated our need for him. He stated that [redacted] was now away from Washington and that he [redacted] was acting as Division Chief in the Pentagon. We told him that we expect [redacted] of the Project to be at our training area on or about 23 April, but that it might be necessary to call on [redacted] for a few days after [redacted] departure on or about 4 May, until [redacted] was prepared to take over on his own. We also mentioned that [redacted] would also proceed to England for a short overlap with [redacted] before the latter's return to the ZI, and if we did not have a Physiological Training Officer on board, we might again feel it necessary to call upon [redacted] services. He indicated his understanding of our problem.
